RELIABILITY

“Confidence from strength and durability.”

The Prowler Proof Heritage Design range offers you a selection of uniquely designed doors and side lights with a superior finish that add character to your home.

The product range has been developed to offer you and your family a reliable, durable and attractive product that enhances your home as well as increasing its security.

Manufactured with rust-free cast aluminium, the Heritage Design range provides you with confidence that comes with the strength of a fully welded product.

As well as providing a level of security, the quality and elegance of the product will complement the architecture of your home.

The combination of good design and flawless manufacturing will ensure that the Prowler Proof Heritage Design range is a value-adding investment to your property.

“Enhance the style of your home and add character with Heritage Designs.”

HERITAGE DESIGNS:

- SUITS THE STYLE OF YOUR HOME
- IDEAL FOR ENHANCING YOUR HOME'S FRONT ENTRANCE

heritage cast aluminium panels

Heritage products are welded into a high tensile heavy duty frame that is fully welded. All designs are welded at every contact point.
